

After our office has undertaken extensive hard work and a continuous fight for a more efficient Title Deeds process in Cyprus, we feel we have achieved and performed a high level of due diligence to our clients purchasing property in Cyprus. We also feel, as renowned International Property Lawyers in Cyprus, that part of our job description and in accordance with our moral obligations we should provide evidence to show our international clients that our hard work has paid off.

One of the companies we closely collaborated with us is Oikos developers. After recent discussions with Oikos, on 23rd November we received from them the Final Certificates of Approval for projects listed below:

1. Frixos & Petros
2. Jack
3. Kapparis III
4. Kapparis II (proof of final approval)
5. Eftehia

We have reviewed further cases with Oikos and also have the Final Certificates for the division of plots of land for project 'Andriana A'.

We encourage all developers to work along side with A&G Kouzali Legal Firm based in Paralimni Cyprus, and provide us with similar details of their projects so we can help restore investors' confidence in Cyprus.

We hereby attach all proof of Final Certificates of Approval issued to us by Oikos Developers.
